Subject DONT SELL OUT!!

I am an enraged US citizen who is appalled by your idea to roll back the Radioactive Disposal laws. Sacrificing public & environmental health to allow corporate business to dispose of thier own waste irresponsibly is one of the most damaging decisions you could make. It is obvious this Administration is selling out to big businesses despite it's own nation's health. Isn't the EPA an Environmental PROTECTION Agency, or is it only a cover to destroy our environment by selling out to the biggest buyer?? Your children will be affected by this too!! DON'T SELL OUT! Protect our citizens & environment the way your agency is designed to do. Thank you for your time!
